Recap of 2014 Uganda Internet Governance Forum

August 11, 2015

Lillian Nalwoga @ UIGF 2015

About the Uganda Internet Governance Forum

The UIGF seeks:

- Establish IG issues relevant to the Uganda;

- Build a consensus on national and regional positions around relevant IG issues and

- Create awareness about various IG issues including online safety in Uganda especially among vulnerable users.

Key areas discussed:

- Improving access

- IANA transition

- IPv6 adoption

- ccTLD management

- Cyber security management

Recommendations

- Development of relevant local content online in local languages

- Addressing child online protection

- Data protection and privacy

- Capacity building in internet governance to allow for more participation in discussions shaping the internet at the local, regional and international level.
