POSITION	NAME	BIO-PROFILE
President	Dr. Eliezah Titus	Dr. Eliezah Titus Busonga is seeking a first term as the President of the Internet Society Uganda Chapter. He is the first projects coordinator to serve the chapter through the previous term after proposing to create the projects committee at the 2017 General Assembly of the chapter. Immediately after taking office in April 2018 Dr. Eliezah contributed to chapter policy development procedures that could later see the structuring of the chapter into an expanded institution. During his tenure he supported the chapter in developing and executing projects in chapter communities including refugees, schools and the general internet community in Uganda. Dr. Eliezah Titus Busonga served as the Regional Director of the Association of Clinical Research Professionals between 2017 and 2019 and currently serves as the East and Central Regional Coordinator of The Asia & Africa Clinical Trials Partnership. He is also the African Regional Director of The Third Doctors International. He is A Medical Consultant and a trauma surgeon. He is the founder of the Eliezah Foundation Initiative and the current Executive Director of Real Health Uganda. He served in Public service between 2011 and 2015 working with different government entities and in different regions. Born in the city of Kampala, Dr. Eliezah is globally recognised as a health scholar, researcher, feminist and public policy expert with first-hand experience in research, operations, and leadership in emergency responses to community health emergencies. He has worked with different internet society chapters since he became a member of the internet society in 2011.
	Moses Serugo	Moses is an IT and Telecommunications Networks Engineering professional with over 15 years of experience, supporting and delivering IT and Telecom services and solutions that have enhanced the use of the internet in Uganda.

		Moses is current chapter official (Treasurer General) and the founding member for Internet Society Uganda Chapter, a sitting chair for the policy development working group (PDWG) for AFRINIC the Regional Internet Registry (RIR) for Africa where he volunteers his time supporting Internet technology usage and development across the continent and strengthening Internet self-governance in Africa through a bottom-up, multi-stakeholder Policy Development Process (PDP), championing ideas and building networks solutions for internet development in Africa. He is constantly seeking for opportunities and collaboration with all who aspire to see an Internet that is open, globally-connected, secure, and trustworthy for which Internet Society Uganda Chapter is a kind.
